

## HUNDREDS ARE KILLED BY TORNADO

And the Number of Injured Is Very Large.

MANY TOWNS DESTROYED

Tornadoes Sweep Over Alabama, Mississippi and Louisiana.

MOST OF THE VICTIMS ARE NEGROES

Fully Two Hundred and Twenty-five Persons Killed and About Eight Hundred Others Injured—Property Losses From the Storms Are Enormous—Wires Are Down in Some Sections and Later Reports May Add to Casualty List.

New Orleans, April 25.—Belated reports have swelled the total number of deaths by tornadoes in Mississippi, Louisiana and Alabama to 225 deaths. Mississippi apparently suffered most, but poor communications kept the full extent of the disaster from becoming known. The death list was suddenly swelled by nearly 100 additional victims in Purvis and McLaughlin, Miss., towns not previously heard from. The first reports indicated that four-fifths of the victims were negroes, but the later reports showed an increased number of whites, until it is now apparent that of the total of 225 deaths at least 75 are whites.

The number of injured may reach over 800.

The following is a summary of the casualties so far as reported:

- Amite City, La., 25 dead, 65 injured.
- Rural points in Louisiana, 31 dead.
- Berger, Ala., 31 dead, 50 injured.
- Thomas Sawmills, Ala., 22 dead.
- Meridian, Miss., 2 dead, 15 injured.
- Winchester, Miss., 2 dead.
- Concordia Parish, La., and Adams, Jefferson and Claiborne counties, Miss., 64 dead, 100 injured.
- McLaughlin, Miss., 8 dead.
- Unconfirmed—Albertville, Ala., 30 dead, 50 injured; Richland and La Moutre, La., 75 injured.

ALMOST SWEEPED AWAY.

Several Towns Nearly Demolished by Tornadoes.

Atlanta, Ga., April 25.—The latest reports indicate that 150 persons were killed and about 400 injured in storms of great violence which passed over sections of Louisiana, Mississippi and Alabama. Several towns were almost swept away and the property damage was run into large figures.

Most of those killed were negroes, whose cabins were swept away like so much paper.

Natchez, Miss., reports that of sixty-four persons killed in that section, only two were white.

Late reports from Amite City, a small town in Southeastern Louisiana, says that the town was almost entirely destroyed and the estimates placed the number killed at between twenty-five and fifty, while at least seventy-five were injured.

At McLaughlin, Miss., eight are reported to have been killed; at Vidalia, La., one white woman and six negroes are dead; at Quitman Landing, eleven negroes were killed; at Purvis Landing, Miss., three whites and nine negroes were victims of the storm, and reports of from one to five deaths come from many towns scattered over the storm-swept area.

New Orleans and Mobile were cut off from wire communication with the outside world for several hours and the telegraph companies report wires down in all directions.

The storm now is sweeping through Georgia, but beyond torrential rains accompanied by high winds and brilliant electrical displays, no serious damage or loss of life has been reported in the state.

Difficult to Estimate Loss.

It is difficult to estimate the loss of life or the extent of the destruction of property, for there is little or no communication with the points where the wind and rain did its greatest damage.

In Louisiana it is estimated that a score of small towns were destroyed or partially wrecked. They include Amite City, Arcadia and Independence, Belle Grove, Melton, Lorman, Pine Ridge, Quitman Landing, Fairchilds Creek, Purvis and Lumberton, Miss., are reported damaged by the storm.

In Alabama, Dora was the chief sufferer. This town is also known as Bergen. Four or more persons were killed, among them the wife and

daughter of Section Master Moore. Fifty persons at the lowest estimate were injured. Those most seriously hurt were carried to hospitals in Birmingham, Ala. One woman, a Mrs. McCully, died on the train. Two other members of this family were seriously injured.

At Bergen cars were blown from the railroad tracks and considerable other property destroyed.

Reports also say that the storm struck Albertville, Ala., and destroyed nearly the entire northern portion of the town. A cotton mill was blown down, the storm ranging northward, doing much destruction to life and property. An unconfirmed report from this section gives the death list as from thirty to thirty-five with scores of persons injured. A train was sent from Birmingham carrying physicians and a squad of state militiamen to the district. Aid is also pouring in from all other directions.

Tornado in South Dakota.

Sioux Falls, S. D., April 25.—Following the tornado at Valley Springs, a twister swept down upon the town of Flandreau, north of Sioux Falls, and in a few minutes caused losses amounting to several thousand dollars. The twister swooped down upon the town from the northwest. Roofs were blown off, trees were uprooted and much damage was done.

FOR FOUR BATTLESHIPS.

Arguments in Favor of President's Programme in Senate.

Washington, April 25.—Arguments in favor of the president's programme for four battleships consumed most of the session of the senate. Senator Piles of Washington opened the debate, declaring that the Asiatic situation affecting the Pacific coast was a menace to that section, as war clouds might quickly rise over some clash between Americans and the Japanese. He wanted a fleet kept in the Pacific.

Mr. Hale laid before the senate a statement on battleships and other features of the American naval programme which he said showed that as large a fleet as is now in the Pacific can be kept there and at the same time there would be ships for a still larger fleet for the Atlantic.

Senator Beveridge concluded the debate for the day with a strong appeal to senators to vote for four battleships. He was constantly engaged in exchanges of words with other senators. He insisted that peace and not war would be promoted by building up the navy.

During the latter part of the session telegrams were delivered to all senators from a magazine appealing to them for four battleships. "If the appropriation be not granted," the telegram stated, "we shall urge the president to veto the naval bill."

Early in the day Senator Bankhead of Alabama spoke in favor of national appropriations for good roads.

The senate passed a bill appropriating \$100,000 for a survey of an inland water route from Boston to Wilmington.

HART IS DISBARRED.

Attorney Who Criticized Minnesota Supreme Court Suspended.

St. Paul, April 25.—Suspension from practicing as an attorney and counselor at law in any of the courts of this state for six months is the punishment meted out to Captain Francis B. Hart of Minneapolis by the special supreme court appointed to try the disbarment proceedings instituted against him by the State Bar association. The decision, written by Judge Frank C. Brooks of Minneapolis, acting chief justice, was filed with the clerk of the supreme court.

The special court severely arraigned Captain Hart for the language used in his letter to Chief Justice Start and incidentally upholds the correctness of the decisions rendered by the supreme court to which Mr. Hart took exception and upon which the letters were based. As to his defense that the letters were written by him as a citizen and not as an officer of the court, the special court holds that insofar as he exercised the right of a private citizen in criticizing the court he was immune from the penalty sought to be enforced, but that in assailing the chief justice personally he wilfully violated his oath of office and rendered himself liable to disbarment.

Rain Puts Out Fires.

Fergus Falls, Minn., April 25.—Steady rain for several hours has given this part of the state relief from the destructive fires which daily were destroying farm buildings and had grown so rapidly that several villages were seriously threatened. Late reports from the northern part of the state were that hundreds of men were spending most of their time trying to save their homes, but rain will end their troubles in this direction.

## IN HIS WIFE'S ARMS

Duc de Chaulnes Dies in a Hotel in Paris.

VICTIM OF HEART TROUBLE

French Nobleman Who Married Miss Theodora Shonts Less Than Three Months Ago Passes Away Very Suddenly in His Native Land.

Paris, April 25.—In the presence of his bride of less than three months, Emmanuel Theodore Bernard Marie Albert de Luyens d' Ailly, ninth duke of Chaulnes and of Picquigny, and marquis of Dangeau, died suddenly from heart failure in his apartments in the Hotel Langham, in the Rue Boccador. The physicians summoned to attend the duke in his sudden seizure officially gave the cause of death as embolism of the heart.

The Duc de Chaulnes and the duchess, who was Miss Theodora Shonts, youngest daughter of Theodore Shonts of New York, were married in New York on Feb. 16 of this year. The wedding was a brilliant social function and the end of the brief honeymoon was sudden and tragic. Since the arrival of the couple here a month ago they had lived comparatively quietly at the Hotel Langham.

The duke for years has suffered from a weak heart and for some time had been the subject of fainting spells. Several times since his arrival here he consulted Dr. Henri Isevesco in an effort to obtain relief from his ailment.

The duke and the duchess, both in the best of spirits, returned from a drive in the Bois de Boulogne. They dined in their private apartments and an hour after dinner the duke complained of feeling ill, and retired.

Stricken and Lost Consciousness.

About 11 o'clock he was suddenly stricken, gasped for breath and immediately lost consciousness. The duchess was seized with panic and screamed for aid. A maid who responded to her cry was hurriedly dispatched for Dr. Isevesco while the hotel management summoned another physician. The two doctors arrived simultaneously and administered the most powerful of heart stimulants, but their efforts were in vain.

The duchess was holding the duke in her arms when he expired. She was overcome by grief and could not be persuaded by some of her American friends, who visited the apartments, to leave the bedside of her dead husband, and kept vigil there throughout the night.

Theodore P. Shonts was notified by cable of his daughter's bereavement and he replied that he would take the first steamer leaving New York and come to Paris.

Notwithstanding the official report that the Duc de Chaulnes died from natural causes, the Paris newspapers print various versions as to the manner and place of his sudden demise. The Petit Journal says the duke died in a small apartment in a house belonging to his sister in the Rue Vandick. A servant entered the apartment and found him dead in bed, his features presenting a livid appearance as if decomposition had set in. Beside the bed, says the account, were bottles containing cocaine, ether and morphine. From this the newspaper draws the deduction that death was due to an overdose of drugs.

CLEVELAND IMPROVING.

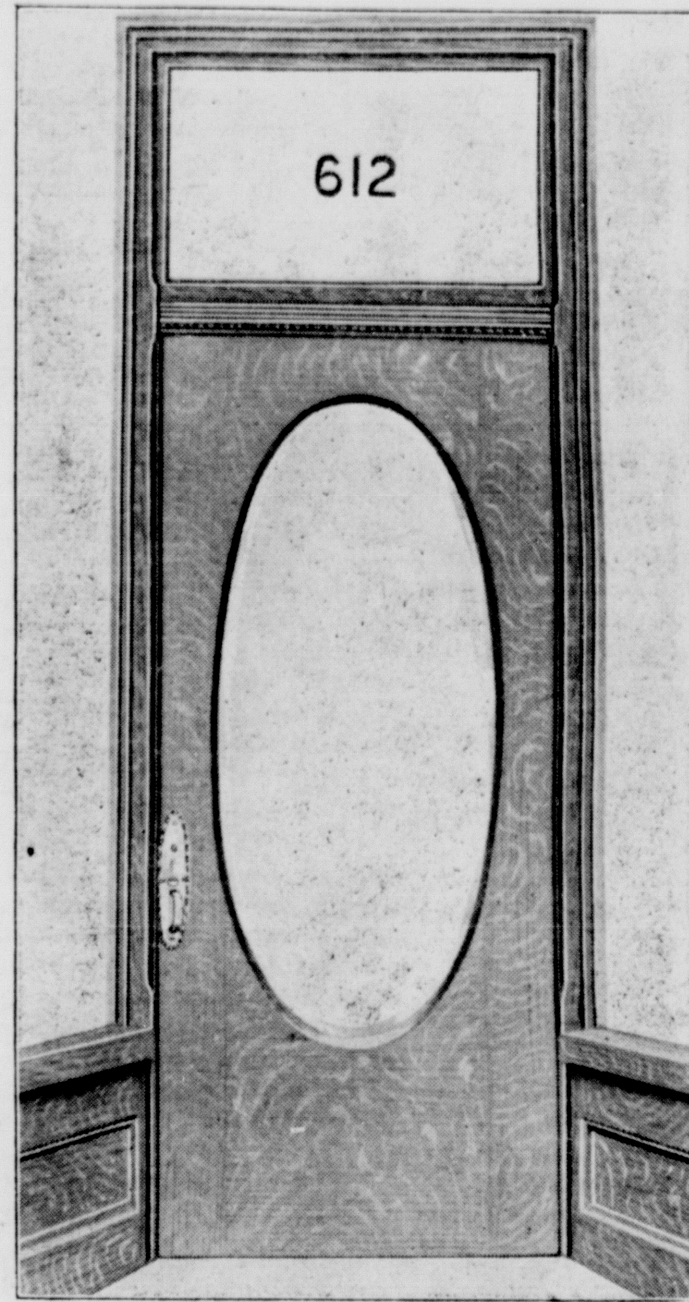

Slowly Recovering From an Attack of Stomach Trouble.

Lakewood, N. J., April 25.—Although Grover Cleveland is said to be slowly recovering from the attack of stomach trouble, he has not improved sufficiently to return to his home in Princeton and the date of his leaving Lakewood is still undecided.

Dr. Joseph D. Bryant, the former president's physician, has arrived here from New York and is with Mr. Cleveland at the Lakewood hotel. His coming, however, is not taken to indicate that there is any change for the worse in Mr. Cleveland's condition, as he has made frequent trips here to see his patient during the latter's illness. It was said at the hotel that Mr. Cleveland is slowly improving and that there had been little change in his condition in the past twenty-four hours.

Suspects Under Arrest.

Butte, Mont., April 25.—Two young men, George Long and Fred Anderson, each carrying a revolver and a rifle, boarded a northbound Great Northern train at Woodville. Deputy sheriffs from Butte were on the train and the men were arrested at Basin, a few miles further north. They refused to talk. Their trails led from the scene of the attempted holdup of the North Coast Limited Thursday night, a few miles east of Butte, to Woodville.

## CHURCHILL IS DEFEATED.

Crushing Blow to Prestige of New British Government.

Manchester, Eng., April 25.—The Northwest division of Manchester by the heaviest poll cast in twenty years reversed its verdict of 1906 and by a majority of 429 votes unseated as its member of parliament Winston Spencer Churchill, Liberal, who has just been made president of the board of trade in the new Asquith cabinet and who that year so brilliantly wrested the seat from W. Joynson-Hicks, Unionist, his chief opponent of the election just held. Three candidates stood for election, and the result was as follows:

W. Joynson-Hicks, Unionist, 5,417; Winston Spencer Churchill, Liberal, 4,988; Mr. Irving, Socialist, 276.

The defeat of Mr. Churchill is a crushing blow to the prestige of the government and the young and confident minister which is bound to have a marked influence on several pending bye elections. There will be no difficulty in finding for Mr. Churchill a safe seat elsewhere. The Liberals may derive from their defeat what consolation is possible from the fact that prior to 1906 the Northwest division seat was held consistently by the Conservatives.

Among the many influences and cross-currents at work in this extraordinary contest it is not wholly beyond reason to suppose that Mr. Asquith himself was partly responsible for the defeat of his young colleague. It is customary for the leader of a party to send a letter wishing success to any member of his party seeking election to parliament.

Mr. Balfour in this case sent Mr. Joynson-Hicks an unusually long and adroit letter, which doubtless very materially assisted the Unionist campaign. Mr. Asquith, on the other hand, for some as yet unexplained reason, omitted to follow this custom, though he sent a letter to Walter Runciman, president of the board of education, who on Thursday contested and won the seat for Shrewsbury by a majority of 1,145 votes. It is impossible to imagine that the omission in the case of Mr. Churchill was not intentional; but in any case it gave the Unionists an opening to insinuate that

## IN HANDS OF RECEIVER.

Widely Known New York Brokerage Firm Suspends.

New York, April 25.—The widely known brokerage firm of T. A. McIntire & Co., members of the New York Stock Exchange and of the New York Cotton and Produce Exchanges, with branches in several cities of the country, was placed in the hands of a receiver within a few hours after the announcement of the firm's suspension on the stock exchange. C. C. Burlingham, the receiver appointed by the United States district court, stated that no estimate could be given out at this time regarding the liabilities or assets of the firm. The suspension had no observable effect on the stock market.

The firm's troubles are said to have had their inception at the time of the financial panic last fall, when the capital of the firm became impaired, according to a statement made by Walter H. Moler, office manager of the suspended institution in this city. Mr. Moler stated that the firm's liabilities would be under \$1,000,000, but gave no intimation as to the amount of assets.

## BUSINESS OF THE HOUSE

Proceeds at a Rapid Gait Despite Continued Roll Calls.

Washington, April 25.—The business of the house proceeded at a rapid gait, despite the fact that the Democrats forced six roll calls. Over 1,000 pension bills were put through, the largest batch of the session. A bill also was passed providing for the protection of life on navigable waters during regattas and marine parades.

There was also discussed the Burleson resolution demanding the report of the commissioner of corporations on the cause of fluctuations in cotton. No opposition to the resolution developed.

## HOLD INFORMAL MEETING

Republicans Discuss Currency Question at the Capitol.

Washington, April 25.—A score of the Republican members of the house, including recognized leaders and others deputed to ascertain the sentiment of the majority on the currency question, held an informal meeting at the Capitol and compared notes on the situation. The situation as it presents itself now is this:

Counting on no support from the Democratic members, the Vreeland currency bill can be defeated by twenty-six Republicans. Those who have been making a canvass of the majority side have not yet fully ascertained that enough Republican votes to pass the Vreeland bill are assured, but the work of polling the members will go on for the present. The leaders believe that some Democratic votes can be secured for the measure, after an opportunity has been given to the minority to fulfill their party obligations by voting for the Williams bill. This bill, of course, cannot pass and those on the Republican side who have the Vreeland bill in charge believe that with what strength they can draw from the minority, added to the strength already assured and to be obtained on their own side of the house, they will be able to put the bill through.

The senate is willing to accept the Vreeland bill and put it through with perhaps a few minor amendments affecting the clearing house clause in lieu of the Aldrich bill. It is probable that the conference of Republican members to be held in the near future will determine the passage of the Vreeland bill in the house with an added amendment providing for the creation of a currency commission which also would be satisfactory to the senate.

More Than a Score Killed.

City of Mexico, April 25.—Twenty-eight persons were killed and fifteen seriously injured at Gargantua Siding, on the main line of the Mexican railway in a collision between a freight and the second section of a special excursion train bearing pilgrims from the shrine of Guadalupe.

Mr. Asquith, on the other hand, for some as yet unexplained reason, omitted to follow this custom, though he sent a letter to Walter Runciman, president of the board of education, who on Thursday contested and won the seat for Shrewsbury by a majority of 1,148 votes. It is impossible to imagine that the omission in the case of Mr. Churchill was not intentional; but in any case it gave the Unionists an opening to insinuate that

the premier either disapproved of Mr. Churchill's tactics in pledging the government on the Irish home rule and other questions or that he would not be unwilling to see the over-confident young minister receive a check.

## IN HANDS OF RECEIVER.

Widely Known New York Brokerage Firm Suspends.

New York, April 25.—The widely known brokerage firm of T. A. McIntire & Co., members of the New York Stock Exchange and of the New York Cotton and Produce Exchanges, with branches in several cities of the country, was placed in the hands of a receiver within a few hours after the announcement of the firm's suspension on the stock exchange. C. C. Burlingham, the receiver appointed by the United States district court, stated that no estimate could be given out at this time regarding the liabilities or assets of the firm. The suspension had no observable effect on the stock market.

The firm's troubles are said to have had their inception at the time of the financial panic last fall, when the capital of the firm became impaired, according to a statement made by Walter H. Moler, office manager of the suspended institution in this city. Mr. Moler stated that the firm's liabilities would be under \$1,000,000, but gave no intimation as to the amount of assets.

## BUSINESS OF THE HOUSE

Proceeds at a Rapid Gait Despite Continued Roll Calls.

Washington, April 25.—The business of the house proceeded at a rapid gait, despite the fact that the Democrats forced six roll calls. Over 1,000 pension bills were put through, the largest batch of the session. A bill also was passed providing for the protection of life on navigable waters during regattas and marine parades.

There was also discussed the Burlington resolution demanding the report of the commissioner of corporations on the cause of fluctuations in cotton. No opposition to the resolution developed.

## HOLD INFORMAL MEETING

Republicans Discuss Currency Question at the Capitol.

Washington, April 25.—A score of the Republican members of the house, including recognized leaders and others deputed to ascertain the sentiment of the majority on the currency question, held an informal meeting at the Capitol and compared notes on the situation. The situation as it presents itself now is this:

Counting on no support from the Democratic members, the Vreeland currency bill can be defeated by twenty-six Republicans. Those who have been making a canvass of the majority side have not yet fully ascertained that enough Republican votes to pass the Vreeland bill are assured, but the work of polling the members will go on for the present. The leaders believe that some Democratic votes can be secured for the measure, after an opportunity has been given to the minority to fulfill their party obligations by voting for the Williams bill. This bill, of course, cannot pass and those on the Republican side who have the Vreeland bill in charge believe that with what strength they can draw from the minority, added to the strength already assured and to be obtained on their own side of the house, they will be able to put the bill through.

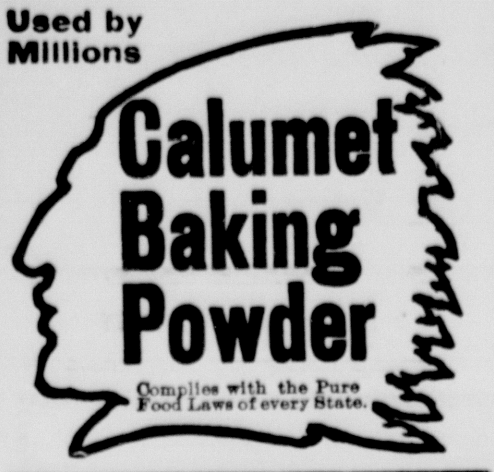

The senate is willing to accept the Vreeland bill and put it through with perhaps a few minor amendments affecting the clearing house clause in lieu of the Aldrich bill. It is probable that the conference of Republican members to be held in the near future will determine the passage of the Vreeland bill in the house with an added amendment providing for the creation of a currency commission which also would be satisfactory to the senate.

More Than a Score Killed.

City of Mexico, April 25.—Twenty-eight persons were killed and fifteen seriously injured at Gargantua Siding, on the main line of the Mexican railway in a collision between a freight and the second section of a special excursion train bearing pilgrims from the shrine of Guadalupe.

FATAL WRECK IN IOWA.

Engineer and Fireman Killed and Brakeman Badly Injured.

Clinton, Ia., April 25.—Engineer J. W. Dexter and Fireman H. D. Seymour were killed and Brakeman John Doherty was badly hurt when freight train No. 132, eastbound, went through a bridge over Clear creek, three miles west of De Witt. The swollen condition of the creek following a cloudburst weakened the bridge.

The engine of the freight passed over the bridge first. A car went through, toppling the engine and piling seventeen cars in the creek and on the track. The cars were all loaded with cattle and hogs and there was awful carnage among the animals.

"The Merry Widow" Hat. There is something in the music of "The Merry Widow" tune That sets your pulse a-tingle like the balmy breath of June. But let yourself down easy; then you will not fall so flat. When you meet the merry widow in "The Merry Widow" hat.

You may love her at a distance, you may worship her afar. You may gaze upon her beauty as you would upon a star. And get near enough to tease her, but be satisfied with that. You can never hope to squeeze her in that "Merry Widow" hat.

She may tell you that she loves you while her eyes are softly hid. But try to keep your senses and your mind upon that lid. She will kiss you, then she'll miss you, and you won't know where you're at. With that widow combination and that "Merry Widow" hat.

If you take her for a promenade, your bliss will be complete. Till you find you have to flounder in the middle of the street. For Gatling guns and cannons have no such force as that. When you get it in the optic from "The Merry Widow" hat.

It extends in all directions in a quite impartial way. Loaded down with gorgeous blossoms like a float on gala day. On the street car it is awful, for you have to squeeze down flat. Huddled up beneath the awning of "The Merry Widow" hat.

Oh, you enemy of Cupid, when you manufactured this. Did you ever stop to figure all your brotherhood would miss? But perhaps it was a woman, and an ancient one at that. For I don't believe a man designed that "Merry Widow" hat. —Florence Goff Schwarz in Cincinnati Commercial Tribune.

Bilious Spells

A HABIT.  
Year after year you suffer from attacks of bilious headache, indigestion, constipation alternating with looseness of the bowels, dizziness, despondency and ill temper, until your trouble becomes a habit, develops into Bright's disease of the kidneys.

You can break this chain of bondage by the use of  
**Dr. A. W. Chase's Kidney and Liver Pills**

They cure biliousness and constipation by reason of their direct and specific action on the liver, ensuring the filtering of the bile from the blood, where it is poison and passing it into the intestines where it is necessary to aid digestion and regulate the bowels. This great medicine is backed by the skill and integrity of the famous Receipt Book author, A. W. Chase, M. D. One pill a dose, 25 cents a box, at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

Mrs. S. M. Watkins, Lowell St., Ionia, Mich., states:  
"I had great trouble with my kidneys, torpidity of the liver and biliousness, and have found the use of Dr. A. W. Chase's Kidney and Liver Pills most gratifying. They restored the organs to normal and healthful action and made me well."

### FATAL WRECK IN IOWA.

Engineer and Fireman Killed and Brakeman Badly Injured.

Clinton, Ia., April 25.—Engineer J. W. Dexter and Fireman H. D. Seymour were killed and Brakeman John Doherty was badly hurt when freight train No. 132, eastbound, went through a bridge over Clear creek, three miles west of De Witt. The swollen condition of the creek following a cloudburst weakened the bridge.

The engine of the freight passed over the bridge first. A car went through, toppling the engine and piling seventeen cars in the creek and on the track. The cars were all loaded with cattle and hogs and there was awful carnage among the animals.

"The Merry Widow" Hat. There is something in the music of "The Merry Widow" tune. That sets your pulse a-tingle like the balmy breath of June. But let yourself down easy; then you will not fall so flat. When you meet the merry widow in "The Merry Widow" hat.

You may love her at a distance, you may worship her afar. You may gaze upon her beauty as you would upon a star. And get near enough to tease her, but be satisfied with that. You can never hope to squeeze her in that "Merry Widow" hat.

She may tell you that she loves you while her eyes are softly hid. But try to keep your senses and your mind upon that lid. She will kiss you, then she'll miss you, and you won't know where you're at. With that widow combination and that "Merry Widow" hat.

If you take her for a promenade, your bliss will be complete. Till you find you have to flounder in the middle of the street. For Gatling guns and cannons have no such force as that. When you get it in the optic from "The Merry Widow" hat.

It extends in all directions in a quite impartial way. Loaded down with gorgeous blossoms like a float on gala day. On the street car it is awful, for you have to squeeze down flat. Huddled up beneath the awning of "The Merry Widow" hat.

Oh, you enemy of Cupid, when you manufacture this. Did you ever stop to figure all your brotherhood would miss? But perhaps 'twas a woman, and an ancient one at that. For I don't believe a man designed that "Merry Widow" hat. —Florence Goff Schwarz in Cincinnati Commercial Tribune.

BODIES WERE FOUND
FRIDAY AFTERNOON
Remains of Henry Moberg and
Sam Glover Found in Lake
Lizzie by Searchers

MOBERG'S BODY BROUGHT HERE
Geo. Bell and H. Van Epps Make
Hard Night Ride by Team
With Remains

A party of about a dozen searchers from Pine River found the remains of Henry Moberg and Sam Glover Friday night. Moberg and Glover, who had been missing since Sunday, were drowned in Lake Lizzie as was supposed. The bodies were found in about eight feet of water, about six or seven rods from shore. The steel boat in which they were hunting was seen lying on the bottom withing a very few feet of the bodies. That of Glover was found first, Dr. Bickford, of Pine River, bringing it to the surface with a spear. The remains of Mr. Moberg were found close by. The bodies were found about six o'clock in the evening and the searching party came at once to Pine River, with the remains. Geo. Bell and Henry Van Epps, of Pine River, started about 11 o'clock by team for Brainerd with the remains of Mr. Moberg, arriving here this morning. Mr. Bell states that they had a very hard trip through the dark and rain. In several places they found large trees, which had burned down by the forest fires, blocking the road and were obliged to back up and work their way around the obstructions. The remains of Mr. Glover will be buried at Pine River, probably on Sunday. The funeral of Mr. Moberg will take place Sunday afternoon at the Presbyterian church, followed by interment at Evergreen cemetery. The Eagles, of which he was a member, will attend the funeral in a body. He leaves a widow and one daughter, the latter about 15 years of age.

VERY PLEASANT DANCES
Boiler Makers Helpers and Junior
High School Class Gave Very Enjoyable Dances Friday Night

The lovers of the dance in Brainerd were well entertained Friday night. The Helpers Division of Boilermakers Union gave their annual ball at Gardner's hall. The room was beautifully decorated a portion of the decorations of the Hibernians being used and many new and handsome ones added. The hall was crowded by merry-makers and they tripped the light fantastic till the small hours of the morning to the music of Graham's orchestra. Light refreshments were served throughout the evening. One of the swellest social events in the history of Brainerd high school was the reception and dance given by the junior class Friday night in honor of the senior class. Walker's hall was handsomely decorated, the colors of classes being much in evidence. The evening was very pleasantly spent in dancing and all present enjoyed a most pleasant evening.

KILLED UNKNOWN MAN
Stranger Killed at Royalton Friday
Evening While Tryin to Steal
Ride on Cars

An unknown man was killed by a Northern Pacific local freight at Royalton. According to the reports brought to this city by trainmen he was trying to steal a ride. Just as the train had started he caught the rods on a car and tried to swing under, onto the trucks, but slipped and the wheels passed over him, severing one leg near the body. He was taken on the engine and hurried to Little Falls, but died before reaching the hospital at that place.

WHY FAT MEN STRUT.
Professor Robinson Also Gives the Reason For Their Fierce Looks.
"Why do fat men walk with a proud carriage and despite their joviality often have a fierce look in the eye?" was the question discussed at length the other day before the French Academy of Sciences in Paris by Professor Robinson, the eminent savant. He expounded a complicated and highly technical explanation, showing that the repletion of the stomach has the effect of drawing up the diaphragm and shortening the base of the thorax, thus lengthening the waist. The mechanical effect of this is that the stout, well fed man is forced to strut. "At the same time," he said, "a very stout person is inclined to have a fierce look in his eye because the socket in which the eyeball moves is incumbered with adipose tissue.

MEETING
WAS A SUCCESS
Prof. Weld Addressed Association
on "Literature From an Educational Stand Point"
MANY TEACHERS ATTENDED
Despite Rain One-Third of all
Rural Teachers in County
Were Present

The Crow Wing County Educational Association met in regular semi-annual session Friday afternoon and evening and this forenoon. The association was called to order at 2:30 Friday afternoon by Miss Mary Cosgrove, the president. The afternoon was devoted to a discussion of grammatical and arithmetical subjects, conducted by Superintendent Wilson. Notwithstanding the heavy downpour of rain all the forenoon, one-third of all those teaching in the county were present at roll call. The evening session was held in the beautiful and spacious high school room in the Washington building. A large and appreciative audience greeted President Weld and Miss Hazelton, of the Moorhead Normal school. Miss Hazelton sang several solos very sweetly with Miss Pence as accompanist. Professor Weld's address was on the subject of "Literature from an Educational Stand Point." It was very instructive and entertaining and was closely listened to by the teachers and others present. The Saturday forenoon session was called to order by Miss Cosgrove at 8:30 o'clock. In a round table discussion conducted by Miss Howland, of Ft. Ripley, boarding places and the price of boarding were warmly discussed by a number of teachers. "Music in Public Schools," was discussed by Supt. Hartley, Prof. Weld and others. At the close of the round table Miss Hazelton sang a beautiful solo and gracefully responded to an enthusiastic encore. Miss Mary J. Burke, of the Brainerd public schools, read a most interesting paper on "What should be Prominent in the Character of a Young Person Aiming to Become a Teacher."

Prof. Weld also gave a most helpful talk on matters pertaining to the profession of teaching which was greatly appreciated by those present. Some forty rural teachers and a number of the teachers of the city schools attended the Friday afternoon and Saturday morning sessions. Supt. Olson, of Cass county, was also present, making himself agreeable as he always does. Supt. Wilson says that he is pleased to see the increased interest shown in these meetings by the teachers and citizens, and that the county superintendent does not now have to do all the work the teachers being so capable and interested that much of the work of the association is done by them. The action of the school boards in session last June in permitting the teachers to attend these meetings on Friday and Saturday without loss of pay has done much for the advancement. It was a movement in the right direction.

Death Was on His Heels.
Jesse P. Morris of Skippers, Va. had a close call in the spring of 1903. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was at my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at Dunn's drug store 50c and \$1.00. Trial bottle free. ttdsw

Private Railroad For Farmers.
Six miles of railroad track between Shumway and Effingham, near Mattoon, Ill., abandoned about eight months ago by the Wabash railroad because the business did not justify the heavy expenses of maintenance are being used in a novel way by the farmers who occupy adjoining land. Some of the mechanically inclined have constructed a sort of gondola hand car with a long pole as propeller, and twenty can ride on the car at one time. It has been dubbed "the daylight limited" and on market days makes almost regular trips from end to end of the farmers' railroad.

CONVENTION A SUCCESS
C. Bruhn, Delegate to Minnesota
Sunday School Convention Reports First-class Meeting
C. Bruhn, county delegate to the State Sunday School convention, returned Thursday night from St. Paul, where the convention was in session April 21-23. He reports a splendid time; as it was the 50th annual convention great preparation had been made to make this anniversary a big success. The meetings were held at the beautiful Central Presbyterian church St. Paul, and some 700 delegates, representing almost every county in the state, were in attendance. Prof. D. B. Towner, of Chicago, led the convention music. Dr. W. B. Forbush, of Detroit, Mich., gave four lectures on "The Boy Problem." W. C. Pearce, superintendent teachers' training department, of Chicago, gave a number of addresses. Besides these, some of the best pulpit talent of the present day favored the convention with speeches on different important questions of the Sunday School work. Several receptions were arranged and all delegates were unanimous in stating that this convention was the biggest and most successful state Sunday School convention ever held in Minnesota. The next convention will be held at Crookston, Minn.

Films Vindicate Gotch
The moving pictures films of the celebrated Gotch-Hackenschmidt wrestling match will be presented in Brainerd on May 2nd at the opera house. The films show various stages of the journey of "Hack" to Chicago and give the contest in detail. They are said to completely refute the charges of Hackenschmidt as to Gotch's "roughing" over which the ex-lion made such a holler.
J. C. Rockwell's New Sunny South Co.
The attraction at the Brainerd opera house, Thursday evening, April 30th will be J. C. Rockwell's New Sunny South company, one of the most popular colored organizations on the road, presenting "Sunrise on the Old Plantation." This company is recognized as one of the biggest, brightest and best of its kind. There are no pretensions of a serious plot or story, but all the energy of the rather large company, which would be used in unraveling a plot, is employed to the apparent greater pleasure of the audience in producing laughs and presenting unusually fetching dances. Everything is new, modern, high-class, refined and up-to-date to the minute.
The high-class solo concert band which accompanies the organization, will head the "Koon" town parade at 4 p. m. The organization also carries its own orchestra so patrons can rest assured that they will be given some old plantation music. Prices are 25, 35, 50 and 75 cents.
There is more to this show than the county fair than all other shows put together, and until the last few years, was supposed to be the best. For a great many years it has been pronounced a local success and has been the cause of many a local disease and has been the cause of many a local disease and has been the cause of many a local disease. It is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists. To Try Growing Hemp in Wisconsin.
Experiments in the growing of hemp in Wisconsin will be conducted by the agronomy department of the University of Wisconsin in co-operation with the United States department of agriculture and the state board of control. The farms of the state penitentiary at Waupun, the Mendota Insane asylum and the agricultural experiment station at Madison, Wis., have been chosen for the experiments, which will be carried on under the supervision of L. H. Dewey, a government agronomist. The plan is to discover what soils in Wisconsin are best adapted to the culture of hemp and whether crops can be produced at a price to make possible its use for binder twine. Experiments will also be made with various machines for the separation of the fibers from the plant and to discover the economic value of hemp as a rotation crop.
Bullet Proof Cuirass.
A number of successful experiments were recently carried out at St. Petersburg with a bullet proof alloy, the invention of an officer of engineers, Lieutenant Colonel Tchermizine. Mauser bullets which when fired almost point blank pierced a target composed of eight thicknesses of ordinary steel merely flattened themselves in mushroom shape against the scales of metal arranged by Colonel Tchermizine in a silken fabric. The clothing intended for military use also proved impermeable both to rifle and revolver bullets. Cuirasses made of the alloy and of sufficient size to protect the chest and back and weighing only five pounds are now being largely employed by the police in various parts of Russia.

Bullet Proof Cuirass.
A number of successful experiments were recently carried out at St. Petersburg with a bullet proof alloy, the invention of an officer of engineers, Lieutenant Colonel Tchermizine. Mauser bullets which when fired almost point blank pierced a target composed of eight thicknesses of ordinary steel merely flattened themselves in mushroom shape against the scales of metal arranged by Colonel Tchermizine in a silken fabric. The clothing intended for military use also proved impermeable both to rifle and revolver bullets. Cuirasses made of the alloy and of sufficient size to protect the chest and back and weighing only five pounds are now being largely employed by the police in various parts of Russia.

BODIES WERE FOUND
FRIDAY AFTERNOON
Remains of Henry Moberg and
Sam Glover Found in Lake
Lizzie by Searchers

MOBERG'S BODY BROUGHT HERE
Geo. Bell and H. Van Epps Make
Hard Night Ride by Team
With Remains

A party of about a dozen searchers from Pine River found the remains of Henry Moberg and Sam Glover Friday night. Moberg and Glover, who had been missing since Sunday, were drowned in Lake Lizzie as was supposed. The bodies were found in about eight feet of water, about six or seven rods from shore. The steel boat in which they were hunting was seen lying on the bottom withing a very few feet of the bodies. That of Glover was found first, Dr. Bickford, of Pine River, bringing it to the surface with a spear. The remains of Mr. Moberg were found close by. The bodies were found about six o'clock in the evening and the searching party came at once to Pine River, with the remains. Geo. Bell and Henry Van Epps, of Pine River, started about 11 o'clock by team for Brainerd with the remains of Mr. Moberg, arriving here this morning. Mr. Bell states that they had a very hard trip through the dark and rain. In several places they found large trees, which had burned down by the forest fires, blocking the road and were obliged to back up and work their way around the obstructions. The remains of Mr. Glover will be buried at Pine River, probably on Sunday. The funeral of Mr. Moberg will take place Sunday afternoon at the Presbyterian church, followed by interment at Evergreen cemetery. The Eagles, of which he was a member, will attend the funeral in a body. He leaves a widow and one daughter, the latter about 15 years of age.

Any Man or Woman can transform a soft wood floor into a perfect imitation of a beautifully grained hard wood floor in a few minutes with
Chi-Namel
and the Chi-Namel Self-Grainer
Or an old hard wood floor, furniture, etc., may be made to look like new, with a harder, more durable finish than it had originally. Chi-Namel colors the wood, and varnishes it at the same time, and the surface is so hard that walking or easying will not remove the gloss. This new self-grainer makes it easy for anyone to produce a beautiful grained effect, exactly like the most expensive hard wood floors. Call at our store and allow us to demonstrate how easy it is to grain and varnish by this improved system. Free samples while they last

VERY PLEASANT DANCES
Boiler Makers Helpers and Junior
High School Class Gave Very Enjoyable Dances Friday Night

The lovers of the dance in Brainerd were well entertained Friday night. The Helpers Division of Boilermakers Union gave their annual ball at Gardner's hall. The room was beautifully decorated a portion of the decorations of the Hibernians being used and many new and handsome ones added. The hall was crowded by merry-makers and they tripped the light fantastic till the small hours of the morning to the music of Graham's orchestra. Light refreshments were served throughout the evening. One of the swellest social events in the history of Brainerd high school was the reception and dance given by the junior or class Friday night in honor of the senior class. Walker's hall was handsomely decorated, the colors of classes being much in evidence. The evening was very pleasantly spent in dancing and all present enjoyed a most pleasant evening.

KILLED UNKNOWN MAN
Stranger Killed at Royalton Friday
Evening While Tryin to Steal
Ride on Cars

An unknown man was killed by a Northern Pacific local freight at Royalton. According to the reports brought to this city by trainmen he was trying to steal a ride. Just as the train had started he caught the rods on a car and tried to swing under, onto the trucks, but slipped and the wheels passed over him, severing one leg near the body. He was taken on the engine and hurried to Little Falls, but died before reaching the hospital at that place.

He Got What He Wanted
'Nine years ago it looked as if my time had come,' says Mr. C. Farthing of Mill Creek, Ind. Ter., 'I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since.' Sold under guarantee at H. P. Dunn's drug store. 50c. ttdw

Bids Wanted
Sealed bids for the construction of a Parochial school building will be received up to 6 o'clock p. m., May 8, 1908. A certified check for the sum of \$300.00 must accompany all bids. The committee reserves the right to reject any and all bids. Plans and specifications and copy of the building contract can be seen at the Citizens' State Bank. Bids should be mailed to the secretary of the building committee. CON O'BRIEN, Pres. Com. JAMES CULLEN, Sec. 272t6

WHY FAT MEN STRUT.
Professor Robinson Also Gives the Reason For Their Fierce Looks.
'Why do fat men walk with a proud carriage and despite their joviality often have a fierce look in the eye?' was the question discussed at length the other day before the French Academy of Sciences in Paris by Professor Robinson, the eminent savant. He expounded a complicated and highly technical explanation, showing that the reptilian of the stomach has the effect of drawing up the diaphragm and shortening the base of the thorax, thus lengthening the waist. The mechanical effect of this is that the stout, well fed man is forced to strut. 'At the same time,' he said, 'a very stout person is inclined to have a fierce look in his eye because the socket in which the eyeball moves is incumbered with adipose tissue.

MEETING
WAS A SUCCESS
Prof. Weld Addressed Association
on "Literature From an Educational Stand Point"

MANY TEACHERS ATTENDED
Despite Rain One-Third of all
Rural Teachers in County
Were Present

The Crow Wing County Educational Association met in regular semi-annual session Friday afternoon and evening and this forenoon. The association was called to order at 2:30 Friday afternoon by Miss Mary Cosgrove, the president. The afternoon was devoted to a discussion of grammatical and arithmetical subjects, conducted by Superintendent Wilson. Notwithstanding the heavy downpour of rain all the forenoon, one-third of all those teaching in the county were present at roll call. The evening session was held in the beautiful and spacious high school room in the Washington building. A large and appreciative audience greeted President Weld and Miss Hazelton, of the Moorhead Normal school. Miss Hazelton sang several solos very sweetly with Miss Pence as accompanist. Professor Weld's address was on the subject of "Literature from an Educational Stand Point." It was very instructive and entertaining and was closely listened to by the teachers and others present. The Saturday forenoon session was called to order by Miss Cosgrove at 8:30 o'clock. In a round table discussion conducted by Miss Howland, of Ft. Ripley, boarding places and the price of boarding were warmly discussed by a number of teachers. "Music in Public Schools," was discussed by Supt. Hartley, Prof. Weld and others. At the close of the round table Miss Hazelton sang a beautiful solo and gracefully responded to an enthusiastic encore. Miss Mary J. Burke, of the Brainerd public schools, read a most interesting paper on "What should be Prominent in the Character of a Young Person Aiming to Become a Teacher."

Prof. Weld also gave a most helpful talk on matters pertaining to the profession of teaching which was greatly appreciated by those present. Some forty rural teachers and a number of the teachers of the city schools attended the Friday afternoon and Saturday morning sessions. Supt. Olson, of Cass county, was also present, making himself agreeable as he always does. Supt. Wilson says that he is pleased to see the increased interest shown in these meetings by the teachers and citizens, and that the county superintendent does not now have to do all the work the teachers being so capable and interested that much of the work of the association is done by them. The action of the school boards in session last June in permitting the teachers to attend these meetings on Friday and Saturday without loss of pay has done much for the advancement. It was a movement in the right direction.

Death Was on His Heels.
Jesse P. Morris of Skippers, Va. had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was at my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at Dunn's drug store. 50c and \$1.00. Trial bottle free. ttdw

Private Railroad For Farmers.
Six miles of railroad track between Shumway and Effingham, near Mattoon, Ill., abandoned about eight months ago by the Wabash railroad because the business did not justify the heavy expenses of maintenance are being used in a novel way by the farmers who occupy adjoining land. Some of the mechanically inclined have constructed a sort of gondola hand car with a long pole as propeller, and twenty can ride on the car at one time. It has been dubbed "the daylight limited" and on market days makes almost regular trips from end to end of the farmers' railroad.

CONVENTION A SUCCESS
C. Bruhn, Delegate to Minnesota
Sunday School Convention Reports First-class Meeting

C. Bruhn, county delegate to the State Sunday School convention, returned Thursday night from St. Paul, where the convention was in session April 21-23. He reports a splendid time; as it was the 50th annual convention great preparation had been made to make this anniversary a big success. The meetings were held at the beautiful Central Presbyterian church St. Paul, and some 700 delegates, representing almost every county in the state, were in attendance. Prof. D. B. Towner, of Chicago, led the convention music. Dr. W. B. Forbush, of Detroit, Mich., gave four lectures on "The Boy Problem." W. C. Pearce, superintendent teachers' training department, of Chicago, gave a number of addresses. Besides these, some of the best pulpit talent of the present day favored the convention with speeches on different important questions of the Sunday School work. Several receptions were arranged and all delegates were unanimous in stating that this convention was the biggest and most successful state Sunday School convention ever held in Minnesota. The next convention will be held at Crookston, Minn.

May 2—Gotch—Hackenschmidt films.
May 8—The Power that Governs.
Soon—"The Burgomaster."
"At the Unique"
Tonight is positively the last chance to see the Bachellor Sisters and the James Boys at the Unique. These have both proved drawing attractions and should be seen to be appreciated. An entire change of program will be given Monday.

Films Vindicate Gotch
The moving pictures films of the celebrated Gotch-Hackenschmidt wrestling match will be presented in Brainerd on May 2nd at the opera house. The films show various stages of the journey of "Hack" to Chicago and give the contest in detail. They are said to completely refute the charges of Hackenschmidt as to Gotch's "roughing" over which the ex-lion made such a holler.

J. C. Rockwell's New Sunny South Co.
The attraction at the Brainerd opera house, Thursday evening, April 30th will be J. C. Rockwell's New Sunny South company, one of the most popular colored organizations on the road, presenting "Sunrise on the Old Plantation." This company is recognized as one of the biggest, brightest and best of its kind. There are no pretensions of a serious plot or story, but all the energy of the rather large company, which would be used in unraveling a plot, is employed to the apparent greater pleasure of the audience in producing laughs and presenting unusually fetching dances. Everything is new, modern, high-class, refined and up-to-date to the minute. The high-class solo concert band which accompanies the organization, will head the "Koon" town parade at 4 p. m. The organization also carries its own orchestra so patrons can rest assured that they will be given some old plantation music. Prices are 25, 35, 50 and 75 cents.

There is more CURE in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local treatment, constantly failing to cure with local treatment, pronounced it incurable. Science has proven that to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. To Try Growing Hemp In Wisconsin.
Experiments in the growing of hemp in Wisconsin will be conducted by the agronomy department of the University of Wisconsin in co-operation with the United States department of agriculture and the state board of control. The farms of the state penitentiary at Waupun, the Mendota Insane asylum and the agricultural experiment station at Madison, Wis., have been chosen for the experiments, which will be carried on under the supervision of L. H. Dewey, a government agronomist. The plan is to discover what soils in Wisconsin are best adapted to the culture of hemp and whether crops can be produced at a price to make possible its use for binder twine. Experiments will also be made with various machines for the separation of the fibers from the plant and to discover the economic value of hemp as a rotation crop.

A 6088 GOOD TEMPLAR.
In the state of Iowa many old soldiers are buying 6088, the great Northern blood purifier, for rheumatism, catarrh and kidney trouble. Read this extract from a letter written by Mr. Story Keith, Clinton, Iowa, P. O. C. T., Independent Order of Good Templars, to George H. Hazard: "I have not been as free from rheumatism for a long time as at present, and will tell you what has done it—Matt J. Johnson's 6088, made in St. Paul—perhaps you know of them, if so give them my love for they have a dandy remedy for the ills that we boys are subject to. Everyone in our family is taking it, and all are feeling better. My wife has been so lame she could hardly get up from her chair, and my back at times gave me lots of trouble. Now we are all feeling better, and will keep a bottle on hand at all times." This great remedy is sold by the best druggists everywhere. Ask about our free trial. Sold and guaranteed by—M. K. Swartz, Druggist Brainerd, Minn.

Board of Health Order
Notice is hereby given to owners of or residents on any property in the city of Brainerd that they are requested to remove all accumulations of manure, garbage, ashes and other refuse before the 6th day of May, 1908, from all alleys or lots under this supervision; cellars and privy vaults must be thoroughly cleaned. Any person who allows any accumulation of manure, decayed animal or vegetable matter, or other nuisance upon premises in his possession or under his control, shall be deemed guilty of a misdemeanor and will be dealt with according to the statutes provided. By order Board of Health. 275t6 R. A. BEISE, Chairman.

The Information Contained in This Citizen's Statement is Priceless

The hale, the hearty, the strong can afford to toss this paper to one side impatiently when they read the following, but any sufferer in Brainerd who has suffered hours of torture caused by kidney complaint will stand in his own light if he does not follow the valuable advice offered here.

Mrs. J. H. Zellers, of 915 Main St., Brainerd, Minn., says: "Before using Doan's Kidney Pills I suffered for six months from my kidneys. The secretions were badly discolored and I also suffered from a heavy pain across the small of my back. A box of Doan's Kidney Pills were procured for me at H. P. Dunn's drug store, I took them and a cure resulted. I can truthfully say that I have not had a symptom since. On October 28th, 1904, six years after giving the above statement, Mrs. Zellers said: 'I am just as pleased to recommend Doan's Kidney Pills today as I was in 1898. I have not had an attack of kidney trouble since they cured me.'"

**PRAISE FOR CANAL WORK.**

**Emil L. Boas Predicts Success of Great Panama Waterway.**

Emil L. Boas, resident director and general manager of the Hamburg American line, who returned recently to New York, with Mrs. Boas, from a month's trip to Jamaica, Colombia, Costa Rica and the isthmus of Panama, in speaking of his trip said:

"First and foremost in interest of anything seen during my trip is that wonderful undertaking, the Panama canal. It is simply overpowering, and after seeing what has been done and getting acquainted with the men who are doing the work the conclusion is made that all the great difficulties will be overcome and the stupendous work brought to a successful finish."

"If you stand on the height opposite the Gatun dam and have Major Hardy, in charge there, point out a great gap in the hill which has been made in the last half year, you get an idea what a 'million yards of earth removed' represent."

"Another way of appreciating these quantities is to watch the excavator at work. There it stands at the side of the hill, scooping up earth or rubble or big stones and dumping them into a waiting dirt train. It dips, fills, lifts and drops incessantly, but how long it takes to fill a car—a train! Everywhere are excavators of varied patterns, pneumatic drills and dirt trains. It is a wonderful scene of industry and activity, and there is not the slightest doubt that the American government will complete what first was advocated in 1820 by a Spaniard, Diego de Mercado, and frowned on as sacrilegious by King Philip II. of Spain, then actually taken up and abandoned by the French people and declared by eminent engineers to be an almost impossible undertaking."

Mr. Boas said that the mosquito, a great disseminator of disease in the canal belt, was practically extinct through the systematic efforts of the American health authorities there.

**A Woman's Back**

Has many aches and pains caused by weakness and falling, or other displacement of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cure. It is the most potent invigorating tonic and strengthening nerve known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy of known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equalled. Little sugar-coated granules—easy to take as candy.

**ADMITTED BY LILLEY**

**Some of His Charges Were Made on Rumors.**

**SOUGHT NO CONFIRMATION**

**Declares He Introduced His Resolution in Order That the Facts Might Be Brought Out—Stevens Insists on Obtaining Information.**

Washington, April 25.—The special house committee investigating the Electric Boat company devoted its session to endeavoring to ascertain from Representative George L. Lilley the grounds on which he based his charges against the company. Mr. Lilley admitted that some of these charges were made on rumors and others on what he had been told. Asked if he had tried to find out the facts, he replied:

"I did not constitute myself an investigating committee to go around and find out what the facts were. I introduced my resolution in order that these facts might be brought out."

Mr. Stevens took up each specific charge and insisted that Mr. Lilley tell everything he knew concerning it. While he did not withdraw any charge against the company, Mr. Lilley would not say that any one had been corrupted by the methods used by the company.

This assertion led Mr. Broussard to ask the following question:

"You charge this company with using reprehensible methods to influence congress, the navy department and the press of the country. You want them investigated and yet you say you will not make the charge that congress, the navy department or the press has resorted to these methods. Will you please point out where the harm has been done—who has been corrupted?"

**No Person Mentioned.**

"I made the charge," responded Mr. Lilley. "That the company used these corrupting methods, but I have not mentioned any specific person who has been corrupted. My resolution was for the purpose of finding this out."

Mr. Lilley was asked the following questions by Chairman Boutelle:

"If the naval bill of this year had contained a proposition for full, free and open competition in submarines, which met your approval, would you have introduced your resolution?"

"I do not think I would have introduced it," answered Mr. Lilley.

Chairman Boutelle announced that the committee would like to have Mr. Lilley's letter book, referred to Thursday, as well as his stenographer's note book. Also all letters of Mr. Lilley referring to this investigation. Mr. Lilley, through his counsel, asked that the purpose for which the letters were wanted be stated, and while not declining to produce them did not promise to do so. Chairman Boutelle announced that if Mr. Lilley declined to comply with the request the committee will make a demand for the books substantially in the legal effect of a subpoena duces tecum.

With the question still undecided adjournment was taken for the day.

**STRANG WINS THE RACE.**

**American Captures Auto Trophy With an Italian Car.**

Briarcliff, N. Y., April 25.—A streak of red, leaving behind a comet-like trail of blue smoke, flashed through serried lines of cheering thousands, shot over the finish line at Briarcliff Manor, going at sixty miles an hour, and returned Frank Lewis Strang, an American driving a fifty-horsepower Italian car, the winner of the Briarcliff trophy automobile race. The fast flying machine had covered the 259 miles of the twisting, serpentine course in 5 hours, 14 minutes and 13 1/2 seconds. Strang's machine was in front throughout the contest.

The filmy vapor of Strang's car had scarcely lifted from the racing lane when Cedrino, also driving an Italian car, whizzed by the grand stand, capturing second honors of the contest and covering the circuit in 5 hours, 21 minutes and 5 1/2 seconds. Cedrino made a mighty spurt in the last part of the contest and established a new record for the course—87 minutes, 15 seconds for 324.6 miles. Guy Vaughn, in a thirty-horsepower American machine, pressing Cedrino closely for second honors in the last lap, was third, while Herbert Lytle, in a fifty-horsepower American car, was fourth and Paul Sartori, driving a forty-horsepower Italian machine, was fifth. The time of Vaughn was 5 hours, 28 minutes and 29 1/2 seconds, while Lytle covered the course in 5 hours, 29 minutes and 15 1/2 seconds. Sartori's time was 5 hours, 33 minutes and 45 1/2 seconds. The judges officially declared the race off when Sartori crossed the finish line. Three other machines of the twenty-two starters were on the course when the race was called off to prevent accidents to the great crowd of spectators, numbering about 100,000 persons.

There were several minor mishaps during the contest, which compelled the withdrawal of several racers, but no one was injured.

**Girls Crushed to Death.**

Lunenburg, N. S., April 25.—Two girls, aged nine and eleven years, daughters of Henry Pernette of West La Have Ferry, met a tragic death in a waterwheel of a lumber mill at that place. The children were in the habit of taking a shortcut across the stream, under the wheel when the mill was idle. They were under the wheel just as the mill started. The wheel caught them and crushed them to death.

### OF UNTOLD VALUE

The Information Contained in This Citizen's Statement is Priceless

The hale, the hearty, the strong can afford to toss this paper to one side impatiently when they read the following, but any sufferer in Brainerd who has suffered hours of torture caused by kidney complaint will stand in his own light if he does not follow the valuable advice offered here.

Mrs. J. H. Zellers, of 915 Main St., Brainerd, Minn., says: "Before using Doan's Kidney Pills I suffered for six months from my kidneys. The secretions were badly discolored and I also suffered from a heavy pain across the small of my back. A box of Doan's Kidney Pills were procured for me at H. P. Dunn's drug store, I took them and a cure resulted. I can truthfully say that I have not had a symptom since. On October 28th, 1904, six years after giving the above statement, Mrs. Zellers said: 'I am just as pleased to recommend Doan's Kidney Pills today as I was in 1898. I have not had an attack of kidney trouble since they cured me.'"

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doans—and take no other.

Danger to Fordway's Ducking Stool. The pretty Kentish village of Fordwich, near Canterbury, in England, is in danger of losing its ducking stool, for which a large price has been offered by a transatlantic millionaire. This is one of the very few remaining examples left in England of the instrument formerly designed for the reformation of scolding or otherwise unsatisfactory wives. This distinction, of course, it shared with the now similarly rare scold's bridle. It is said, by the way, that the ducking stool at Fordwich was even used in the punishment of so called witches after the barbarous fashion of those times.

### PRAISE FOR CANAL WORK.

Emil L. Boas Predicts Success of Great Panama Waterway.

Emil L. Boas, resident director and general manager of the Hamburg American line, who returned recently to New York, with Mrs. Boas, from a month's trip to Jamaica, Colombia, Costa Rica and the Isthmus of Panama, in speaking of his trip said:

"First and foremost in interest of anything seen during my trip is that wonderful undertaking, the Panama canal. It is simply overpowering, and after seeing what has been done and getting acquainted with the men who are doing the work the conclusion is made that all the great difficulties will be overcome and the stupendous work brought to a successful finish.

"If you stand on the height opposite the Gatun dam and have Major Hardy, in charge there, point out a great gash in the hill which has been made in the last half year, you get an idea what a 'million yards of earth' removed represents.

"Another way of appreciating these quantities is to watch the excavator at work. There it stands at the side of the hill, scooping up earth or rubble or big stones and dumping them into a waiting dirt train. It dips, fills, lifts and drops incessantly, but how long it takes to fill a car—a train! Everywhere are excavators of varied patterns, pneumatic drills and dirt trains. It is a wonderful scene of industry and activity, and there is not the slightest doubt that the American government will complete what first was advocated in 1620 by a Spaniard, Diego de Mercado, and frowned on as sacrilegious by King Philip II. of Spain, then actually taken up and abandoned by the French people and declared by eminent engineers to be an almost impossible undertaking.

Mr. Boas said that the mosquito, a great disseminator of disease in the canal belt, was practically extinct through the systematic efforts of the American health authorities there.

### A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nerve known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy or know's composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equalled. Little sugar-coated granules—easy to take as candy.

## ADMITTED BY LILLEY

Some of His Charges Were Made on Rumors.

### SOUGHT NO CONFIRMATION

Declares He Introduced His Resolution in Order That the Facts Might Be Brought Out—Stevens Insists on Obtaining Information.

Washington, April 25.—The special house committee investigating the Electric Boat company devoted its session to endeavoring to ascertain from Representative George L. Lilley the grounds on which he based his charges against the company. Mr. Lilley admitted that some of these charges were made on rumors and others on what he had been told. Asked if he had tried to find out the facts, he replied:

"I did not constitute myself an investigating committee to go around and find out what the facts were. I introduced my resolution in order that these facts might be brought out."

Mr. Stevens took up each specific charge and insisted that Mr. Lilley tell everything he knew concerning it. While he did not withdraw any charge against the company, Mr. Lilley would not say that any one had been corrupted by the methods used by the company.

This assertion led Mr. Broussard to ask the following question:

"You charge this company with using reprehensible methods to influence congress, the navy department and the press of the country. You want them investigated and yet you say you will not make the charge that congress, the navy department or the press has resorted to these methods. Will you please point out where the harm has been done—who has been corrupted?"

No Person Mentioned.

"I made the charge," responded Mr. Lilley, "that the company used these corrupting methods, but I have not mentioned any specific person who has been corrupted. My resolution was for the purpose of finding this out."

Mr. Lilley was asked the following questions by Chairman Boutelle: "If the naval bill of this year had contained a proposition for full, free and open competition in submarines, which met your approval, would you have introduced your resolution?"

"I do not think I would have introduced it," answered Mr. Lilley.

Chairman Boutelle announced that the committee would like to have Mr. Lilley's letter book, referred to Thursday, as well as his stenographer's note book. Also all letters of Mr. Lilley referring to this investigation. Mr. Lilley, through his counsel, asked that the purpose for which the letters were wanted be stated, and while not declining to produce them did not promise to do so. Chairman Boutelle announced that if Mr. Lilley declined to comply with the request the committee will make a demand for the books substantially in the legal effect of a subpoena duces tecum.

With the question still undecided adjournment was taken for the day.

### STRANG WINS THE RACE.

American Captures Auto Trophy With an Italian Car.

Briarcliff, N. Y., April 25.—A streak of red, leaving behind a comet-like tail of blue smoke, flashed through serried lines of cheering thousands, shot over the finish line at Briarcliff Manor, going at sixty miles an hour, and returned Frank Lewis Strang, an American driving a fifty-horsepower Italian car, the winner of the Briarcliff trophy automobile race. The fast flying machine had covered the 259 miles of the twisting, serpentine course in 5 hours, 14 minutes and 13 1/2 seconds. Strang's machine was in front throughout the contest.

The filmy vapor of Strang's car had scarcely lifted from the racing lane when Cedrino, also driving an Italian car, whizzed by the grand stand, capturing second honors of the contest and covering the circuit in 5 hours, 21 minutes and 53 1/2 seconds. Cedrino made a mighty spurt in the last part of the contest and established a new record for the course—87 minutes, 16 seconds for 32.46 miles. Guy Vaughn, in a thirty-horsepower American machine, pressing Cedrino closely for second honors in the last lap, was third, while Herbert Lytle, in a fifty-horsepower American car, was fourth and Paul Sartori, driving a forty-horsepower Italian machine, was fifth. The time of Vaughn was 5 hours, 28 minutes and 29 1/2 seconds, while Lytle covered the course in 5 hours, 29 minutes and 15 1/2 seconds. Sartori's time was 5 hours, 33 minutes and 45 1/2 seconds. The judges officially declared the race off when Sartori crossed the finish line. Three other machines of the twenty-two starters were on the course when the race was called off to prevent accidents to the great crowd of spectators, numbering about 100,000 persons.

There were several minor mishaps during the contest, which compelled the withdrawal of several racers, but no one was injured.

## FREE TO YOU—MY SISTER

Free to You and Every Sister Suffering from Woman's Ailments.

I am a woman.  
I know women's sufferings.  
I have found the cure.  
I will mail, free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want to tell all women about this cure—yes, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or White Discharges, Uterine Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths, also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weaknesses peculiar to our sex.  
I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give me your name and address, tell me how you suffer if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you a free of cost, my book "WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says, "You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures old or young. To Mothers of Daughters, I will explain a simple home treatment, which speedily and effectually cures Leucorrhoea, Green Sickness and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always results from its use.  
Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten day's treatment is yours, also the book. Write today, as you "not see this offer again. Address

Girls Crushed to Death.  
Lunenburg, N. S., April 25.—Two girls, aged nine and eleven years, daughters of Henry Pernette of West La Have Ferry, met a tragic death in a waterwheel of a lumber mill at that place. The children were in the habit of taking a shortcut across the stream, under the wheel when the mill was idle. They were under the wheel just as the mill started. The wheel caught them and crushed them to death.

### Engineer and Fireman Injured.

St. Paul, April 25.—C. R. Williams, an engineer for the Soo railway, is in a critical condition at St. Joseph's hospital from scalds received by the collapse of a filling at Courtland avenue on the line the road is building into the city. George Benepe, the fireman of the engine, was also badly scalded and his presence of mind in "killing" the engine probably prevented the immediate death of the engineer.
